## Monitor and Record every detail of PC and Internet activity in your practice or clinic

SpectorSoft designs products for monitoring and recording every detail of PC and Internet activity in your practice or clinic. These products are especially popular with employers who want to reduce inappropriate and non-work related web surfing.

Keep an eye on your accounts and make sure there is no chance of any inappropriate behaviour.

The advanced surveillance screen snapshot features will allow you to see not only WHAT they do, but the EXACT order in which they do it, step by step. With Spector Soft products, you will never doubt who is doing what on the computer.

### **Spector Pro 2010** (Available for PC and Mac)

Spector Pro captures and organizes ACTUAL Emails (SMTP and web-based services such as Hotmail), Chat Conversations, and Instant Messages and includes the best Keystroke Logger available anywhere!

PLUS - built in intelligence will examine and analyse all PC activity to determine if you should be NOTIFIED IMMEDIATELY.

### **eBlaster 2010** (Available for PC and Mac)

The ONLY software that captures their incoming and outgoing emails, chat and instant messages - then IMMEDIATELY forwards them any email address you choose.

eBlaster also creates an hourly Activity Report detailing all emails sent and received, chats, IMs, keystrokes typed, web sites visited, programs launched and peer-to-peer (P2P) files downloaded - then sends it directly to YOUR email address.

### **Spector CNE**

Automatically document and archive everything your employees do on the computer and the Internet including: what web sites they are visiting, who they are instant messaging with, who they are emailing, what they are typing, when they are working and when they are playing.

Spector CNE features automated deployment, remote management tools and will record a wide range of PC activity including Email, Chat/IM, Web Surfing, Keystrokes and Programs used. Spector CNE also includes our award-winning VCR-like screen snapshot recording.
